Choice Irises

GROWN AT
SUNNYSIDE GARDENS
NATICK, MASS.

SUNNYSIDE GARDENS

Are located on both sides of Harvard Street Extension, and No. 3 Sawin Street (residence). Take North Avenue, at North Main Street, and turn left into Sawin Street. Visitors are welcome any day in the week. I grow more than 500 varieties of the best modern kinds, including a great many of the recent novelties of merit, and several hundred seedlings of my own raising.

POSTAGE

Postage will be paid on all orders amounting to \$2.00 or more, except as otherwise noted. Orders for less than \$1.00 are not accepted. We begin shipping the middle of July and up to the first of September. To Southern States and the West Coast until late October.

SUBSTITUTES

Late orders should include a list of substitutes in case some varieties are sold out. Otherwise your money will be returned for varieties out of stock.

JOIN THE AMERICAN IRIS SOCIETY

You will receive four Bulletins each year, chock full of Iris interest, all for \$3.00. Send your remittance to B. Y. Morrison, 116 Chestnut Street, Tacoma Park, D. C.

BRONZE MEDAL

The Bronze Medal of the Massachusetts Horticultural Society was presented to L. Merton Gage, for his Sunnyside Gardens Collection of Irises, in Boston, June 8th, 1932.

SUNNYSIDE GARDENS

Iris Introductions

FOR 1934

GOLD VELLUM—(Gage). (Coronation X mixed pollen). Large flowers with flaring falls. Standards Pale Chalcedony yellow. Falls Wax Yellow. Orange beard. Heavy substance, and smooth texture. Free flowering and distinct from all other yellow Irises. Medium to late blooming. 27 inches\$5.00

LADY GAGE—(Gage). Parentage lost. Medium size flowers of good substance. When the flowers open they are flushed delicate lilac-pink, and fade out to pure white the next day. Very free flowering, and increases rapidly. A most satisfactory garden white; midseason. 30 inches, \$5.00

JERRY—(Lapham, 1934). This is the most brilliant red Iris that I have seen. Good size, well-rounded ruby red flowers; firm stalk; well branched. Medium to late. 36 inches....\$10.00

1933 INTRODUCTIONS

GLORIOLE—(Gage, 1933). Description by Mrs. Thomas Nesmith: "This Iris is the most outstanding of the new Irises of 1932. A light blue self overlaid with glistening white, the iridescence reminding one of the thick frost crystals found on window panes after a cold winter's night. Might be described as an ice blue self. The flowers are exceedingly large, beautifully formed with slightly flaring falls and perfectly domed standards, the heavy substance, fine finish and texture of the flowers enable them to withstand wind, rain and heat. A wonderful flower of brilliant sheen and great beauty. The flower stalks are very tall and well branched, bearing many blooms, which last over a long period of time." Height, 42 inches.....\$30.00

NORMA GAGE—(Gage, 1933). Standards cupped, arching; white flushed soft pink. Falls slightly flaring; white flecked with soft pink. A lovely little pink and white intermediate with medium size flowers of good substance and fine texture. Very free flowering. Quite distinct from other pink and white Irises. Midseason\$8.00

RED BEAUTY—(Gage, 1933). Standards Dark Vinaceous Purple. Falls Hay's Maroon; brilliant orange beard. Medium size flowers of fine form, substance and texture. The falls are the reddest of any Iris to date, showing no purple when held against the light. Height 28-30 inches. Midseason\$5.00

SUNNYSIDE GARDENS, NATICK, MASS.

ECLAT—(SD-1)—(Gage, 1933). Flowers of fine form and substance on well-placed, tall, graceful stalks. Wax yellow overlaid with pink, blending into a bright orange color effect. Bright orange beard. Good size flowers and free blooming. Medium to late. Height, 36-38 inches\$5.00

PURPLE GIANT—(Gage, 1933). Enormous dark blue-purple flowers. 32 inches\$2.50

SNOWCREST—(Gage, 1932). Sib. This is similar in color to Snow Queen, of which it is a seedling, but it is taller and freer flowering. I showed a few stalks at the Exhibition of the A. I. S., in Boston, last June, and a flood of orders, not anticipated, forced me to withdraw filling orders early in the season, to protect my propagating stock. A limited number of divisions will be supplied this year. Height 38 inches\$5.00

I have limited stocks of the following choice varieties for August delivery:

ALCINA\$2.25
AMBROSIA\$1.00
ANNDelia\$2.00
ASHTORETH\$5.00
BLUE JUNE\$25.00
CLAUD AUREA\$5.00
GILEAD\$5.00
JEB STUART\$10.00
LARGO\$5.00
NO-WE-TA\$2.50
NEWTONIA\$2.50
RED RADIANCE\$8.00
ROSE DOMINION\$5.00
SPRING MAID\$3.50
WHITE MARBLE\$5.00

GENERAL LIST OF Tall Bearded Iris

ALLURE—(Murrell, 1927). Canary yellow, overlaid with pink-lavender. Silver Medal. 40 inches\$1.00

ABORA—(Hill, 1931). A rich red-violet self. 32 inches. H. M., A. I. S.\$2.00

ANDREW JACKSON—(Kirk., 1929). A rich red-violet self. 36 inches.....75c

ANNE MARIE CAYEUX—(Cay., 1924). A soft mauvette self. C. M. 36 inches.....\$3.00

BEAU SABREUER—(Wmsn., 1930). A yellow pink. Enormous flowers. 45 inches.....75c

BLUE BANNER—(Kirk., 1929). Light blue with purple center. 36 inches75c

BLUE VELVET—(Loomis, 1929). A clear, velvety dark blue. 42 inches. A. M.....\$2.50

BUECHLEY'S GIANT—(Buechley-Gage, 1933). This is described as the largest, and best formed large Iris yet produced, and it is a very beautiful flower, similar in color to Lord of June. Perfect form. Standards erect. Falls flare similar to Frieda Mohr. Stalks are nicely branched with height to carry the enormous flowers. Vigorous, with fine colored foliage. In fact, an outstanding Iris\$5.00

SUNNYSIDE GARDENS, NATICK, MASS.

- CHARIS**—(Nes., 1928). Coppery red bicolor resembling Grace Sturtevant50c
- CHURCHMOUSE**—(H. Sass, 1929). An almost self Hay's Brown. 36 inches.....50c

IMPERATOR	

Orders under \$3.00, at dozen rate, must include postage of two cents for each rhizome.

IRIS SIBIRICA

Do not plant Siberian Irises in dry or sloping ground. They like moist, but not too wet soil, and should be planted a little deeper than tall bearded Irises; the crowns $\frac{3}{4}$ inches below surface, and should be watered occasionally during a dry spell.

DRAGONFLY—Pale blue standards flushed violet, and rich sky blue falls. 45 inches.....25c

EMPEROR—Large, fine formed flowers. Deep, rich violet-blue. 50 inches25c

ENSATA—Clear, pale blue, sweetly scented. 40 inches50c

KINGFISHER—Large, dark blue flowers on stems over 4 feet tall\$1.00

MISS DODO—Very large flowers of azure blue, 52 inches75c

PAPILLON—A beautiful light blue of uniform color. 48 inches50c

PERRY'S BLUE—Clear tone of China blue. 48 inches25c

SNOWCREST—Tall, free blooming white. See 1933 Introductions, page 2.....\$5.00

SNOW QUEEN—Large, snow-white flowers, with golden yellow blotch. 30 inches.....15c

TRUE BLUE—A little darker standards than Perry's Blue. 24 inches. Good for rock gardens, 50c

Siberian Irises shipped in Spring and Fall. April and September preferred.
